

Cavan

The time has come

High-speed fibre broadband is here

BUILDING A LIMITLESS IRELAND

The Time has come for High-speed Fibre Broadband

We're National Broadband Ireland (NBI).

We're delivering high-speed fibre broadband under the National Broadband Plan (NBP), on behalf of the Government of Ireland, ensuring homes, schools and businesses have access to high-speed fibre broadband, no matter how remote or rural.

This new NBI™ network is **now available** in **Cavan** and the surrounding townlands, including Killykeen, Carrickane and Drumcor.

For a full list of townlands and to check to see if your Eircode or address is covered, go to **www.nbi.ie**

How to get connected

As a wholesale Open Access Provider, NBI does not sell broadband directly to homes or businesses. Instead, the new NBI™ Network will be used by broadband providers to bring high-speed fibre broadband straight to your door.

Getting connected to the new NBI™ network is easy;

1. Go to **www.nbi.ie** to see if your Eircode or address is covered.
2. See what trusted broadband providers are selling in your area.
3. Contact your preferred broadband provider to see what packages and bundles they have available.
4. Your preferred broadband provider will then work with NBI to get you connected as quickly as possible.

That's it! You will be soon enjoying all the limitless possibilities high-speed fibre broadband has to offer.

What is the new NBI™ Network?

The NBI™ network is a Fibre-to-the-Home (FTTH) network, a highly reliable technology using fibre-optic cables capable of delivering speeds up to 10GB. The NBI™ network will be providing speeds of up to 1GB for business and residential users, with a minimum speed of 500MB. Our network will be ready to grow alongside your data needs.
