²Planning and Development Regulations, 2001 (as amended) (S.I. 600 of 2001)

Checklist for compliance with requirements of the relevant Regulations

In the case of Class 1A (subdivision of a house)

Relevant Requirements	Please Tick
The proposed development will be completed before 31st December 2030.	
The works will be completed in line with Building Regulations including (fire safety) and building control regulations.	
The subdivision of the principal dwelling will not result in the principal dwelling as more than 2 units in total, each of which must have a minimum floor space of at least 32 sq./m.	
Each subdivided unit within the principal dwelling will be self-contained and not reliant on the use of shared internal space other than for access.	
Development has not been carried out on the proposed site under Class 3A (detached auxiliary dwelling to the rear of the main principal dwelling).	

In the case of Class 3A (detached auxiliary dwelling)

Relevant Requirements	Please Tick
The proposed development will be completed before 31st December 2030.	
The detached auxiliary dwelling will only be occupied in conjunction with the main dwelling house and will not be sold or subdivided separate to the principal dwelling.	
The works will be completed in line with the relevant Building Control legislation such as Building Regulations (including Fire Safety) and Building Control Regulations.	
The detached auxiliary dwelling structure is not temporary in nature such as a caravan or mobile home.	
The height will not exceed, in the case of a building with a tiled or slated pitched roof, 4 metres or, in any other case 3 metres.	

The total area of such structures constructed, erected or placed within the rear garden of the curtilage of a detached house will not be less than 32 square metres. Taken together with any other structures previously constructed, erected or placed under Class 3 within the said curtilage, will not exceed 45 square metres.	
Development has not been carried out on the proposed site under Class 1A (subdivision of the principal house).	
The construction, erection or placing within the curtilage of the principal house of any such structure will not reduce the total amount of private open space reserved exclusively for the use of the occupants of the house to less than 25 square metres.	
Independent pedestrian and / or wheelchair access to the detached house will be provided for within the curtilage of the principal house and no new vehicle or pedestrian access on to a road will be constructed under this exemption.	
There will be no separate connection to utilities, including water or wastewater utilities.	
In the case of non-piped wastewater treatment, the structure will not encroach on any approved percolation area. On site wastewater, treatment shall be of sufficient capacity to meet the additional loading and shall comply with the EPA Code of Practice for Domestic Wastewater Treatment Systems. There will be no additional wastewater treatment units installed as part of this class.	
The structure will be a distance of not less than 0.6 metres from any wall or party boundary.	
Any windows proposed in the structure will be at least 0.6 metres from the boundary they face.	
The detached auxiliary dwelling will not be used for the purpose of short-term letting.	
The principal dwelling house is the sole or main residence of the property owner at the time the development is commenced.
